📍 Johar Town, Lahore

### SKILLS

- 1) JavaScript ES6
- 2) Node.js
- 3) Express.js
- 4) NestJS
- 5) TypeScript
- 6) MongoDB
- 7) PostgreSQL
- 8) Git/GitHub
- 9) Jira

### EDUCATION

**Matric Computer Science**

**Tech High School**

2019-2021

Completed Matric in Computer Science subjects with a splendid A+ grade.

**Intermediate in Computer Science**

**The Punjab College**

2021-2023

Completed Intermediate in Computer Science subjects with an excellent A grade.

### LANGUAGES

Urdu   
English

### PROFILE

I'm Shahzaib Ahmed, a dedicated backend developer with years of experience in building robust applications using Node.js and NestJS, with JavaScript as my primary language. I specialize in developing scalable APIs and optimizing backend processes to enhance performance and reliability. I thrive on tackling complex challenges and believe in writing clean, maintainable code.

### WORK EXPERIENCE

#### Back End Intern - Back End Developer

Thirty North Dev

Aug 2023 - Jan 2024

- During my internship at Thirty North Dev, I gained substantial hands-on experience with a range of key back-end technologies, including JavaScript, Node.js, Express.js, MongoDB, and Mongoose ODM.
- My role involved actively participating in several professional projects, where I applied and honed my skills in back-end development. This experience provided me with a deep understanding of building and maintaining server-side applications and working with databases.
- I was responsible for implementing features, debugging issues, and optimizing performance, which allowed me to work closely with both front-end developers and project managers. This collaboration ensured the seamless integration of server-side logic with user-facing elements, enhancing overall application functionality and user experience.
- Additionally, my internship exposed me to best practices in coding standards, version control using Git, and agile development methodologies. I learned to manage tasks efficiently, adapt to evolving project requirements, and contribute to team efforts with a focus on delivering high-quality, scalable solutions.

#### Back End Developer

Ranglerz Digital Marketing

FEB 2024 - Present

- During my time at Ranglerz Digital Marketing, I've developed extensive hands-on experience with backend technologies and development practices.
- I've worked on numerous projects, guiding several from inception to production, which has sharpened my ability to deliver top-notch solutions.
- I have designed and deployed secure admin panels using server-side rendering, ensuring both strong functionality and high security standards.
- Collaborating with cross-functional teams, I've effectively integrated backend services with front-end applications to create smooth and efficient solutions.
