Muhammad Ali Ramzan

MERN Stack Developer | React.js & Next.js Specialist

I am a passionate and detail-oriented **MERN Stack Developer** with **1 year** of experience, specializing in **React.js and Next.js** for building dynamic and responsive user interfaces. Recently, I have expanded my expertise to **Node.js, Express.js, and MongoDB**, allowing me to develop full-stack applications with seamless frontend-backend integration. I thrive on crafting intuitive user experiences, optimizing performance, and building scalable, high-quality web solutions. With a strong foundation in both frontend and backend technologies, I am eager to take on new challenges in full-stack development.

WORK EXPERIENCE

Frontend Developer
Ranglerz

08/2024 - Present — Lahore, Pakistan
Software Company
Role

- I am currently working as a Frontend Developer at Ranglerz, where I specialize in building and maintaining dynamic, user-focused web applications using React.js and Next.js. My role involves creating responsive interfaces, optimizing performance, and collaborating with teams to deliver scalable and efficient solutions.

Frontend Internee
Zoom IT Solutions

11/2023 - 02/2024 — Lahore, Pakistan
Software Company
Role

- I began my journey as a React.js Intern, where I honed my skills in developing interactive and responsive web applications. During this time, I gained hands-on experience in implementing modern frontend technologies, collaborating with teams, and contributing to real-world projects, laying a strong foundation for my career in web development.

EDUCATION

BSCS
Virtual University

02/2025 - Present — Lahore, Pakistan

Aspire College of Arifwala

06/2021 - 06/2023 — Lahore, Pakistan
Courses

- Computer Sciences, Maths, Physics

SKILLS

Bootstrap · Css · Express Js · Frontend Web Developer · Html · Javascript · MongoDB · Next Js · Node Js · React Js · Tailwind CSS

PERSONAL PROJECTS

Macromed (09/2024 - Present)

- E-commerce website which is designed to sell surgical instruments using React.js, Bootstrap, and Redux Toolkit. It supports multiple variants for each product, ensuring users can easily select specific models or configurations. Features include dynamic product management, responsive design, and advanced state handling for cart and wishlist functionality. The platform is tailored to manage complex product options and provide a seamless shopping experience while maintaining scalability and performance.

Sages Wedlock (08/2024 - 12/2024)

- This matchmaking platform connects users based on their profession and education, providing tailored suggestions to enhance compatibility. My role involved UI corrections to improve user experience, seamless API integrations to ensure reliable data exchange, and refining the overall interface for a polished and user-friendly design. The platform focuses on delivering personalized and meaningful connections.
